

*'I can do things you cannot, you can do things I cannot, together we can do great things.'
- Mother Theresa*

When we set out to launch the 'Love Howick' movement - we were so aware that one of our vital ingredients for success would be building long-term partnerships that would sustain and grow the work of community transformation that we so eagerly desire. We couldn't do the work we do in isolation but needed to draw together all sectors of society to make this dream a reality.

'Building a platform for partnership' continues to be our core mission and one that we keep revisiting as an organisation. What ties these partnerships together is a firm commitment to uphold a shared set of *core values*. Here is a summary of these core values:

Integrity: our conduct, speech and dealings will uphold strong moral principles and ethical standards that are consistent with the Word of God. We seek to establish an accountable, transparent and honest culture in all our endeavours.

Purpose: we will continuously seek to innovate sustainable ways to impact and improve the quality of life for the citizens of our community, at all times keeping our purpose of a 'prosperous city' before us.

Positivity: we are committed to positive speech and hope fuelled ideas that promote optimism, vision and joy in our community;

Diversity: we value each individual and embrace diversity in culture and nationality. We will foster an environment of love, dignity and respect toward all people, and at no times will discriminate along political, race, gender lines.

Humility: we seek to make serving our community our primary posture of influence. We aim to provide sustainable solutions to the problems facing our community through channels that promote service, unity, and humility.

Excellence: we believe that high standards of professionalism should be demonstrated at all times. This is lived out through the competence, dedication and passion of all our directors, staff and volunteers. We are committed to excellence and ongoing learning that will continuously improve our standards.

We believe that with all that's going on in the world, that its time for us all to come together and do GREAT things! If these values resonate with you or your organisation and your would like to be a key partner in bringing transformation to our community - then please join the team by emailing info@lovehowick.com. We firmly believe that our best days as a community & nation lie ahead of us - but moving beyond the problems besetting us all requires a commitment to active engagement from all role-players.

Launching **Entrepreneurship 101** to uplift and upskill budding entrepreneurs

Love Howick is excited to be partnering with My SME, an industry leader in entrepreneurship training and professional business coaching based in Cape Town, as well as local training consultants META, to provide the KZN Midlands with a cutting edge Entrepreneurship Program that will see new business launched to curb the negative effects of unemployment and poverty in our community.

The Entrepreneurship development programme was launched specifically for those launching new business ideas, as well as those interested in learning how to grow their existing business with a learning model that consists of 36 online instructional videos, 4 group tutorials, access to IT & learning support plus the opportunity to attend a 'Pitch Night' where each student will get the opportunity to present their Business Plan to a panel of local business leaders for their input. Students who perform well in this program will also be selected for a 12-week Business Coaching journey that has been set up by My SME to mentor, encourage and help entrepreneurs to get their business start-ups launched successfully.

On Wednesday, 20 October, Village Restaurant at Yard 41, hosted our first 'Pitch Night' with our panel of experienced Business People. Our students were able to hear constructive feedback on their business plan and were encouraged in areas they were excelling in. We are so proud of our young entrepreneurs and what they will achieve!

"Education's purpose is to replace an empty mind with an open one."

- Malcolm Forbes

NOVEMBER UPCOMING COURSES

Computer Literacy:
